

## Vicky Lee, Bristol City Centre BID

My role at [Bristol City Centre Business Improvement District](#) focuses on delivering projects that enhance the welcome and feel of the city.

I am currently working on a number of initiatives to reduce street-based anti-social behaviour, including our recently launched contactless giving scheme [TAP for Bristol](#).

I am also managing the development of a new winter festival for the city, The Bristol Light Festival.

I have worked delivering events and projects for many years, and previous to joining the BID team I was Head of Events at Visit Bath.
